

Situation Covid-19: Weekly Situation Bulletin

06 December 2021

Epidemic situation in the network

The 5th wave is progressing in all the countries where the group is established; the number of new cases on a daily basis continues to rise, prompting countries to strengthen their protection measures.

Nevertheless, the situation within our institutions seems to be stabilizing, thanks to the high rates of vaccinations and the maintenance of precautionary measures. Across the network, 38 facilities have 4 or more cases (compared to 40 the previous week), or 514 residents. The situation in Germany is stable with 28 establishments with 4 or more cases (29 last week).

The vast majority of those affected are asymptomatic or symptomatic pauci, a sign of the effectiveness of vaccination coverage.

The vaccination coverage rate of our employees is very high, thanks to the vaccination obligations in force in most countries. It is close to or equal to 100% in France Italy and Spain, while it reaches 84% in Germany (where vaccination is not yet mandatory).

Given the epidemic pressure, a strict testing policy continues to apply, even beyond health requirements, especially in Germany.

Thus in Germany our network applies a very rigorous testing strategy, namely the testing of any employee (vaccinated or not) at each job, each visitor and the test proposal three times a week to any vaccinated resident or daily for unvaccinated residents.

Actualisation de la couverture vaccinale

The Covid-19 recall campaign continues. To date, more than 64% of our residents across the network have received their^{3rd} dose. Thus, 90% of residents received their third dose in Spain, 64% in France and 53% in Germany.

Social life in institutions

In the Korian network, outings and free visits are the rule. The Group has always been very attentive to maintaining the various social activities and visits in all its establishments, for the quality of life and comfort of residents and patients.

Docteur Didier Armaingaud,
Medical, Ethics & Quality of Service
Director of the Korian Group

Korian is the leading European Care Group serving the elderly and frail. It is present in France, Germany, Italy, Belgium, Spain, Great Britain and the Netherlands.
