

Covid-19 : Weekly Situation Bulletin

December 13, 2021

Epidemic situation in the network

The effects of the 5th wave continue to be felt in all the countries where the group is established with a peak that seems to have passed for Belgium and the Netherlands.

Nevertheless, the situation in our establishments remains stable, thanks to high vaccination rates and the maintenance of precautionary measures. Across the network, 38 facilities have 4 or more cases (a level similar to the previous week), or 531 residents. The situation in Germany is improving with 21 facilities with 4 or more cases (28 last week).

The vast majority of those affected are asymptomatic or symptomatic pauci, a sign of the effectiveness of vaccination coverage.

The vaccination coverage rate of our employees is very high, thanks to the vaccination obligations in force in most countries. It is close to or equal to 100% in France Italy and Spain, while it reaches 85% in Germany (where vaccination is not yet mandatory).

Given the epidemic pressure, a strict testing policy continues to apply, even beyond health requirements, especially in Germany.

Thus in Germany our network applies a very rigorous testing strategy, namely the testing of any employee (vaccinated or not) at each job and each visitor as well as the test proposal three times a week to any vaccinated resident or daily for unvaccinated residents.

Updating immunization coverage

The Covid-19 recall campaign continues. To date, nearly 80% to 90% of vaccinnable residents¹ have received their^{3rd} dose.

¹ person who has received their 2nd dose or has been cured of Covid-19 for more than 5 months

Social life in institutions

In the Korian network, outings and free visits are the rule. The Group remains very attentive to maintaining the various social activities and visits in all its establishments, for the quality of life and comfort of residents and patients. And all the more so in this festive period of the end of the year.

Docteur Didier Armaingaud,
Medical, Ethics & Quality of Service
Director of the Korian Group

Korian is the leading European Care Group serving the elderly and frail. It is present in France, Germany, Italy, Belgium, Spain, Great Britain and the Netherlands.
